

SAFETY POLICY

Dateway to Pacific

The National Airports Corporation Limited is committed to developing, implementing, and constantly improving its strategies and processes to ensure that all our activities achieve the highest level of safety to meet or exceed national and international safety standards.

This Safety Policy Statement reflects NAC's safety culture, which is communicated to all personnel and stakeholders and becomes the foundation of our Safety Management System. Employees, contractors, visitors, volunteers and any other third parties who access areas under our control are required to accept and adhere to our safety objectives. The health and safety of our people is of significant importance and we all have a duty of care for each other.

National Airports Corporation is committed to:

- Management taking the responsibility for safety risk management by providing the necessary resources to achieve the effective operation of our Safety Management System across all activities.
- > Creating an airport wide safety culture where safety is a core value,
- Ensuring that no business activities are conducted in a manner that compromises safety,
- Operating a Hazard Reporting System to eliminate and mitigate safety risks.
- Ensuring all employees have the necessary qualification, training, information, instruction, resources and the right leadership to meet safety requirements.
- Consistently training employees to understand the importance of safety and to recognise, report and address safety hazards.
- Encouraging open reporting of any safety related incidents or information by operating a Just Culture where staft are not punished for reporting a safety issue unless due to gross negligence or a deliberate violation or act,
- All employees taking responsibility for all aspects of safety as a fundamental part of their role,
- Continuously improving safety at the Airports through monitoring, measurement and review.
