

Congratulations and Happy **35th Anniversary PNG Air!**

The Board, Management and Staff of the National Airports Corporation would like to congratulate PNG Air on reaching 35 years of service in Papua New Guinea.

We celebrate with you this important milestone and we look forward to strengthening our business relationship to better serve our people.

The new Vanimo Airport Terminal Building, West Sepik Province. Funded by the Government of PNG with the support of the Asian Development Bank. Officially opened on June 6th 2022.

Transforming airports from Point of Transit to Point of Destination

NAC is Papua New Guinea's leader in Airport Operations.

With a network of 22 national airports across PNG, we are on a mission to provide you with quality airport infrastructure and services that meet the PNG and International Civil Aviation Standards to ensure the highest levels of aviation safety and security.

Supported by a team of dedicated employees, NAC is committed to deliver safe and reliable airport services that contribute to the economic and social development of PNG.

Through our new business direction '**Point of Transit to Point of Destination**' we aim to work collaboratively with development partners, key stakeholders and the Government of PNG to transform selective airports from being mere transit hubs into business hubs.

The bottom line for this new initiative is to diversify and grow our investment portfolio so that we can deliver value for money to our people through quality infrastructure and services.

Point of Transit to Point of Destination
