# PUBLIC NOTICE

## IMPORTANT UPDATE REGARDING USE OF NAC PRIVATE CARPARKS

The National Airports Corporation (NAC) would like to advise all concerned parties who have been using the **NAC Private Carparks** at the Jacksons International Airport domestic and international terminals, that effective immediately, these NAC private carparks will no longer be available for parking.

We sincerely apologize for any inconvenience this may cause. However, these areas are designated **Emergency Assembly Points** for the domestic and international terminals, therefore, they must be left free for their intended purpose.

For your convenience, please use available parking at the domestic and international public carparks.

Effective immediately, the following NAC private carparks are designated for official NAC use only:

- **Airside Operations Office** – Carpark
- **MD's Office** – Carpark
- **AVSEC Base** – Carpark
- **International Terminal Building** (northwest end) Carpark

We appreciate your understanding and cooperation as we implement these changes to comply with safety and security requirements.
